Notes:

- For operations with IDA and IBRD funds, IDA procedures apply.
- For Category B projects, several documents satisfy the EA requirement: EA/EIA/EMP/regional or sectoral EA/environmental audit/hazard or risk assessment (OP 4.01, para. 7).
- Operational Memorandum, December 2, 1993: The full EA is attached to the PID, not summarized in an annex to the PID.
- Pelosi Amendment 1991** (U.S. Government requirement) stipulates that the U.S. Executive Director can only vote to approve projects that have disclosed EAs, Resettlement Plans, and IPDPs in-country, at the InfoShop, and to the Board 120 days before the Board date. Covers all projects, regardless of category, with significant impacts on the human environment. For a copy of the Pelosi Amendment contact the ESSD hotline at 202-522-3773.
- The disclosure requirements of BP 17.50 were incorporated into OP 4.01 which was issued in 1999.
- Where there is an EA, and the Resettlement Plan is part of another document, the relevant section(s) of that document should be disclosed. In the event that the EA and the Resettlement Plan are separate documents, the Plan should be disclosed separately.
- Where there is an EA, and the IPDP is part of a social assessment, the social assessment and/or relevant section of that document should be disclosed. In the event that the EA and the IPDP are separate documents, the IPDP should be disclosed separately.
- GEF full-sized projects (grants over \$1 million).
